

KPMG The Future of Tech Summit

August 3-5, 2022

Your Career. Inspired.

The KPMG The Future of Tech Summit is designed to expose students to the “world of technology” in a professional services firm. We are seeking a select number of high-performing campus leaders to join us and experience the future of work across all three service lines.

Student eligibility

- Current HBCU students or students who identify as Black or African American
- Pursuing a major in accounting, finance, computer science, cyber security, supply chain, MIS or IT related degrees and have an interest in a career in technology or professional services
- Maintain a cumulative 3.0 GPA or higher
- Graduating between December 2021 and May 2025
- Must not require Visa sponsorship for employment now or in the future

What students can expect

- Team building social event(s)
- Interactive panels with diverse firm leadership
- Learn about technology and innovation at KPMG within Audit, Tax, and Advisory
- Collaborate with firm leaders and participate in discussions with peers
- Develop new skills with hands-on learning
- Experience KPMG culture firsthand

Program details

- 75 students from across the country will be selected to participate
- Three day summit focused on technology, innovation, and diversity
- Opportunity to win \$5,000 through a team challenge
- Learn about career opportunities in technology

Testimonials

Kenyon Gray
Benedict College

The Tech Summit was one of the most eye-opening experiences that I’ve had in my college career. When most people think of accounting they think people sitting in their cubicles crunching numbers with a calculator. I wish everyone could partake in this amazing experience to see that KPMG may be an accounting firm however, a lot more than accounting happens there. Learning about design thinking was my favorite part by far!

Nia Jeter
Tennessee State University

The KPMG Technology Summit was one of the best experiences I have had virtually. Hearing everyone’s insight from several different schools whether they were accounting majors, computer science majors, or just simply engineering was quite insightful. I think the Summit was a great example of what working with KPMG could be like and for that I’m very grateful and I’m excited to see what the future holds.

Juan Alexander
North Carolina A&T State University

The KPMG Technology Summit provided me with a great opportunity to network with other students from different HBCUs who have a similar interest in technology. The event also provided great insight into the different careers in technology that KPMG has to offer, which came as a surprise to me since KPMG isn’t generally thought of as a technology company.

Fayola Jean-Paul
University of Kansas

The KPMG Tech Summit was an amazing experience getting to learn more about how KPMG uses technology and innovation within the firm. I enjoyed the panel discussions regarding different topics from firm professionals and learning more about KPMG and their culture as a whole. Before the Tech Summit, I thought of KPMG as strictly an accounting firm. After the Tech Summit, I saw that KPMG has so much more to offer within technology and I’m super grateful that I got to experience it!

Mahlet Zewdie
University of Houston

The KPMG Future of Tech Summit was one of the most fruitful programs I got to be a part of. Being surrounded by such intelligent peers was amazing. The opportunity to listen to someone else’s experience was a refreshing way to kick off the school year. Any employee of KPMG, whether they were an associate, partner, or director, spoke about their experience with the firm in a way that emphasized the importance of culture in a professional setting. Everyone that came out to speak to us was genuine and excited to see us on the path to achieving our goals. It was a great experience and I can’t wait to continue my journey with KPMG!
